

SHEPARD MADE SEC'Y & TREAS. ANOTHER YEAR

Bankers New Officers

President—Elias A. Smith of Salt Lake.
First Vice President—Joseph R. Murdock of Heber.
Secretary Treasurer—J. E. Shepard of Logan.
Executive Committee—William H. Erereton of Provo, Charles H. Barton of Ogden, and N. S. Neilsen of Mount Pleasant.

Ogden, June 24.—"If I were adviser of the President of the United States, I would recommend the immediate occupancy of the Mexican states of Chihuahua, Coahuila, Sonora and Sinaloa; this would establish an effectual blockade and the war would go no farther," said A.W. Iving of Salt Lake to the Utah Bankers convention here today at the conclusion of his address on the Mexican situation. These utterances were vigorously applauded, as was the principal part of his address that many bankers said they considered the feature of the convention.

"The cause of Mexico's trouble began more than 300 years ago," he said, "and is the direct result of oppression of about 14,000,000 persons by the million persons of Spanish blood who hold most of the land and hold the others in peonage. Until something is done to break up the large estates so that the Mexicans may get land of their own, until the system of oppression is destroyed, schools are established and the masses given the opportunity to administer their own affairs, riots and resolutions will continue and the vast resources cannot be developed by American capital.

Business of the eighth annual convention of the Utah Bankers Association was concluded this afternoon with the election of Elias A. Smith of Salt Lake City as president of the association to succeed M. S. Browning of Ogden; J. G. M. Barnes of Kaysville; and J. R. Murdock, were elected vice presidents, and Joseph E. Shepard, cashier of the Cache Valley Bank at Logan, was reelected to the office of secretary and treasurer.

Logan's banks were all represented at the convention. Many subjects of interest not only to the bankers but to the state at large, were discussed. As the bankers realize that they are the custodians of the state's finances it is up to them to aid industries that will tend toward the development of the states resources.

A paper on the sugar industry was read by Fred G. Taylor, secretary of the Amalgamated Sugar Company, which was quite opportune and brought many facts relative to sugar making and its requirements to the earnest attention of the bankers. Some history on the early use of sugar as far back as 300 years B. C. was presented and the history of its development since that time up to the present. The last two hundred years the industry has increased to vast proportions and the use of sugar likewise increased. It was shown that sugar is 98 per cent food value and is far more nourishing than beef or flour.

One fact was brought forth that seemed quite astonishing to the convention, when Mr. Taylor stated that our United States consumes annually 4,000,000 tons of sugar while she produces only 1,000,000 tons or one fourth the sugar consumed in our country. We have been accustomed to obtaining our deficit from Cuba, Porto Rico and some of the Pacific Isles but last year England and France, being unable to obtain their necessary sugar in Europe, came to these countries and purchased their supplies, thus leaving America short in her requirements.

When it is realized that America needs 3,000,000 tons of sugar more than she now manufactures and the sugar costing us \$30 per ton, it can readily be seen that America should wake up to her requirements, raise more beets, build more factories and make a strenuous effort to retain more of this sugar money in our own country.

TROOP H IS MAKING READY FOR SERVICE

Seventy Logan Boys to Leave For
Training Camp About Wednesday.
day. Logan Does Them
Honor

Troop H, composed of Logan boys, is to leave this week for their training quarters at Fort Douglas. In the troop are about seventy of the flower and manhood of this and adjoining communities. All the boys have been pronounced physically sound. Included in the ranks are young married men, men who are leaving good positions.

Logan did her proud sons honor yesterday by giving a rousing demonstration, consisting of one of the biggest parades in the history of northern Utah. Practically every automobile owner in Cache joined in the procession with their automobiles fully decorated with the stars and stripes.

Following the parade there was an open air meeting on the tabernacle square where Dr. E. G. Peterson, president elect of the Agricultural College and Lieutenant Eugene Santachi were the principal speakers. Solos were sung by E. Benson Parkman and W. M. Worley. The talks given were of a most inspiring nature. Every mother who has a son in Troop H. could not help but be proud of the fact after listening to the patriotic speeches.

Upwards of 25 young ladies dressed in white, spent the afternoon and evening selling badges with the inscription, Our Soldier Boys. \$1 each was secured for these badges and a handsome purse was raised and turned over to Troop H. to help the boys on their way.

Arrangements are being made to drive the boys to Salt Lake by automobiles on Wednesday morning. The Logan Military Band will accompany the troop and about 50 automobiles will make the trip.

Everything possible is being done to show the boys that our citizenship is loyal to them and the hearts of

Each year there is but one student selected from Columbia for this position and Mr. Blood says "It is really the choicest bit of work I ever hope to get."

It is gratifying to know that this appointment came without being asked for.

Queer Indian Custom.

The Haida Indians, living on the Queen Charlotte Islands of our Alaskan possessions, were, until a few years ago, divided strictly into two tribes, Ravens and Eagles, both strictly exogamic, which is to say, that Eagle men had to marry Raven women and vice versa, the children, according to a tribal law, becoming members of the mother's tribe and returning to that group when half grown to receive training and ultimately inherit the family property.

Roosevelt Stands For Mr. Hughes

Colonel Theodore Roosevelt in a patriotic letter to the Progressive National Committee declines to run for President and gives an array of unanswerable reasons why all Progressives should support Hughes. It is one of the most patriotic appeals which the Colonel has made for the United States, and should do much towards a united party this fall.

We will print the entire letter in full in our next issue.
